Javascript – basics

objectives

As a student in mechanics and acoustics, I would accept any job in that field featuring research and eventually teaching.

I would be glad to work in the field of industry as long as lab work is part of my job.

education

2011–2013	Candidate for a License SPI. **Bachelor of Science** equivalent	Université du Maine, Le Mans, France

Specialisation in Acoustics
Main Topics: Acoustics, Waves and Propagation modelisation, Kinetics, General Physics, Materials Resiliency

2008–2011	Baccalauréat Scientifique **A Level**	Lycée St Joseph, La Roche sur Yon, France

Cursus: Engineering Sciences, Maths specialisation, Music, Latin

experience

2012–Now	**HAUM (organisation)**	Le Mans, France

Co-Founder & President
HAUM (Hackerspace de l'Université du Maine) is a structure that promotes understanding and modification of systems by experimentation. Role :
- Association creation and promotion
- Organisation of several events
- Working with city structures and services for projects

2013	**La Ruche Numérique**	Le Mans, France

Associate Speaker
Topics :
- Coworking and Online tools (fr)
